

# INDEX.

- A.**
- Adams's case of rupture of the left ventricle, 445.  
 Alison on tubercles, 434.  
 Aloes, 460.  
 Ammoniacal sulphate of copper in epilepsy, 462.  
 Amaurosis, treatment of, 466.  
 Amenorrhœa, 196.  
 American Medical Benevolent Society, 201.  
 Amnesia, 272, 432.  
 Anatomical and pathological researches, 184.  
 Anatomical preparation, new mode of preparing, 200.  
 Anatomy, 187.  
 Aneurism, 195, 489.  
 Angina pectoris, 447, 448.  
 Anomalies, 441, 442.  
 Aorta, obliteration of, 193.  
 Arsenic, reduction of the sulphuret of, 480.  
 Asphyxia, 177.  
 Astragalus, double luxation of, 473.
- B.**
- Bally on morphine, 439, 477.  
 Bartlett's account of La Charité, 369.  
 Battley on aloes, 460.  
 Beclard's case of fistula of parotid duct, 470.  
 Belladonna, poisoning with, 477.  
 Berlyn's case of hemiplegia in an infant, 455.
- BIBLIOGRAPHICAL NOTICES.**  
 Burne on the typhus or adynamic fever, 422.  
 Brown's medical essays on fever, inflammation, rheumatism, diseases of the heart, &c. 438.  
 Graefe's Journal der Chirurgie, 411.  
 Hecker's Literarische Annalen der Gesamten Heilkunde, 435.  
 Mejon's Laws of Physiology, translated, with additions, by G. R. Skene, 439.  
 Stratford's Manual of the Anatomy, Physiology, and Diseases of the Eye and its appendages, 440.  
 Transactions of the Medico-Chirurgical Society of Edinburgh, Vol. III. Part I. 425.
- Biliary calculi, 179.  
 Bladder, rupture of, 452.  
 Blood, coagulation of, 443.  
 —, electricity of, 186.
- Bouilland, anomalies in the anatomy of the kidneys, 441.  
 — diseases of the kidneys, 449.  
 Boulland on tubercles, 457.  
 Brain, softening of, 185.  
 Brown's medical essays, 438.  
 Brome, action of, 479.  
 Burne on typhus fever, 145, 422.
- C.**
- Callaghan on the topography and diseases of Western Pennsylvania, 34.  
 Carditis, 196.  
 Carotid, ligature of, 217.  
 Carpenter on Copaiba, 488.  
 Caste's case of superfetation, 191.  
 Castle's manual of surgery, 183.  
 Cataract, with amaurosis, 216.  
 Caustic paste, 461.  
 Cazenave and Schedel on the diseases of the skin, 491.  
 Cerebellum, tumour of, 203.  
 — organic changes of, 185.  
 Chelidonium glaucum, 181.  
 Chelini on colechicum autumnale, 461.  
 Cherattah, 192.  
 Chervin on yellow fever, 232.  
 Children, diseases of, 1, 165.  
 Chloride of soda in ptyalism, 213.  
 — of lime as a disinfecting agent, 460.  
 — in itch, 200.  
 Chomel on mollescence of the stomach, 202.

 Fearn in tania, 182.  
 Fistula of parotid duct, 470.  
 Flaubert on luxations, 467.  
 Fetus in the ovarium, 180.  
 Foliot's case of luxation, 473.  
 Foundling hospital, 177.  
 Fracture of the cranium, 179.  
 Franche's anomaly of the vascular system, 441.  
 G.  
 Galbanum, tincture of, in diseases of the eye, 181.  
 Gastric complaints, 195.  
 Geogel, 184.  
 Gendrin on anatomical character of leopoma and steatoma, 451.  
 Glandular engorgements, ointment for the reduction of, 463.  
 Glass swallowed, 180.  
 Goodhue's method of treating fractures of the thigh, 147.  
 Gout, 465.  
 Gore's case of angina pectoris, 448.  
 Graefe and Walther's Journal, 411.  
 —'s caustic paste, 461.  
 —'s treatment of pannus, 467.  
 Guerard's case of metritis, 462.  
 Guthrie on the treatment of inflammation of the eye, 465.  
 H.  
 Hays on the diseases of the cornea, 324.  
 Heart, rupture of the right auricle of, 445.  
 — left ventricle of, 446, 447.  
 —, enlarged, 455.  
 —, polypus of, 186, 455.  
 Heat, Dickson on, 262.  
 Hecker's Journal, 435.  
 Hernia, strangulated, 191, 200.  
 Henderson's cases, 351.  
 Heusinger's case of kidney in the pelvis, 442.  
 Hemiplegia, 455.  
 Horner on cholera infantum, 249.  
 Howe's case of tracheotomy, 347.  
 Huic's case of polypus, 473.  
 Huxham on fevers, 169, \*395.  
 Hydatide, 199.  
 Hydrodate of potash in metritis, 181.  
 Hydrocephalus externus cured by an operation, 198.  
 Hydrophobia, 481.  
 —, Reid on, 377.  
 I.  
 Ichthyosis, 178.  
 Infantile follicular inflammation, 249.  
 Inflammation, state of the blood-vessels in, 443.  
 Intermittent fever, 195, 462.  
 Intestinal concretions, 187.  
 Iodine, Fahnestock on, 345.  
 — in gout, 465.  
 — in dyspepsia, 188.  
 Ipecacuanha and mercury, 191.  
 Irritation, 182.  
 Itch, 200.  
 J.  
 Jacobson's case of anastomosis between the glosso-pharyngeal, trifacial, and triplanchnic nerves, 442.  
 Jackson's case of amnesia, 372.  
 — clinical reports, 289.  
 — case of tetanus, 321.  
 Jackson on ergot, 363.  
 —'s case of diabetes, 458.  
 K.  
 Kaltenbrenner on the state of the blood-vessels in fever, 443.  
 Kidneys, 441.  
 —, diseases of, 440, 491.  
 L.  
 La Charite, account of, 360.  
 Larcher on the state of the heart during pregnancy, 442.  
 Leontodon taraxacum, 190.  
 Lewis's case of angina pectoris, 447.  
 Lisfranc's treatment of amaurosis, 466.  
 Lithotripsy, 468.  
 Luxation, ill effect of the attempts at effecting, 467.  
 M.  
 Malformations, 183, 441.  
 Medico-chirurgical transactions of Edinburgh, 425.  
 Medico-legal consultation, 478.  
 Mende's case of insertion of the umbilical vein in the right auricle of the heart, 441.  
 Mercury, metallic, in the human body, 442.  
 Metritis, 181, 462.  
 Michell on ergot, 390.  
 Miller on vaccination, 141.  
 Mojon's Laws of Physiology, 439.  
 Monomania, 194.  
 Monstrosity, 178.  
 Morphine, 437.

## N.

- Neale on ergot, 408.  
 Neuralgia cured by belladonna, 181.  
 Nitrate of silver in plastic inflammations, 460.  
 Nymphomania, 463.

## O.

- Organic diseases of the cerebellum, 185.  
 Osteo-sarcoma, 100, 472, 474.  
 Ozanam's treatment of nymphomania, 463.

## P.

- Page on diseases of children, 1.  
 Pallas on poisoning, 463.  
 Pannus, 467.  
 Pediluvium, mercurial, in syphilis, 187.  
 Peripneumony, 195.  
 Periodical contraction of the extremities, 179.  
 Perspiration after death, 443.  
 Phlegmonous tumours, 185.  
 Placenta, inflammation of, 193.  
 Pneumonia carditis, 196.  
 Poisoning, 177, 180, 462, 464, 477.  
 Polypus, 181, 186, 473.  
 Premature birth, 192.  
 Price's case of enlarged aorta and heart, 448.  
 Prussiate of iron, 187.  
 Pseudo-syphilitic ulcers, 178.  
 Puerperal peritonitis, 462.  
 Pyoligneous acid in ulcers, 206, 472.  
 Pyrothionide in angina, 181.

## Q.

- Quinine, 183.  
 —, new mode of administering, 460.

## R.

- Randolph's case of aneurism, 489.  
 Ranula, treatment of, 177.  
 Rectum, perforation of, 179.

## REVIEWS.

- Huxham's essay on Fevers, to which is now added a dissertation on malignant ulcerous sore throat, \*395.  
 Michell on difficult cases of Parturition, and the use of Spurred Rye, 390.  
 Neale's researches respecting the Natural History, Chemical Analysis, and Medical Virtues of the Spur or Ergot of Rye, when administered as a remedy in certain states of the Uterus, 390.  
 Reid on the nature and treatment of Tetanus and Hydrophobia, with some observations on a natural classification of diseases in general, 377.  
 Renner, instance of cyst containing fetus, 442.  
 Rheumatism, 186.  
 Richet's new mode of administering quinine, 460.
